## “100% as usual!” Real Reviews Rating RMSF...

Just outstanding. Just what we wanted and done quickly and professionally. Can't wait to see the next job I have asked R.M. Smith Fencing Ltd to do.

Professional, courteous and efficient service with first class work completed when promised. Used them many times and never had fault with their work. Their workmen are friendly and polite. If asked to do something else always happy to oblige. Wouldn't use anyone else.

Excellent friendly efficient prompt service as has always been the case with this Company. I would not use anyone else. Thank you from V

The work was completed quickly and to a very high standard with no fuss at all. Very good service and at a very reasonable price. All in all a good job done and a company that we'll certainly contact first should we have any such work needing to be done in future

Smith's have done a lot of work for us over a number of years and we would not go anywhere else for fencing work.

After an enforced shutdown of six weeks, during which we reviewed our practices and procedures, we returned to work on the 11th May. Following the Government and Construction Leadership Council guidelines we are operating at full capacity again.

Some of the procedures we have introduced:

- Staff are temperature checked on arrival
- Vehicles have been equipped with hand washing and hand sanitising equipment
- Staff are working with one co-worker
- Where possible, and where safe to do so, tasks are being undertaken individually
- Close proximity work is being limited to fifteen minutes

Our staff have been enthusiastic in their return to work and we are very proud of the team we have here.

## Versatile and Effective—a Simple Solution

With over eighty clamps in the range and five sizes to choose from, **tube clamp** is useful in a multitude of scenarios. Bolt down or dug in, straight or sloped, galvanised or coated. And with the DDA range of fittings, it helps to meet compliance with the Equality Act and Building Regulations Part M. Walkways, fall prevention, demarcation, queue management, trolley bays, spectator rail, machinery guards, staircase handrails...

## Trusted by Both Ends of the Supply Chain

Welded mesh fencing systems are fast becoming one of the most versatile products in the industry. There is a wide range of product choice and a wide range of suppliers - but not all are as good as they should be. With our years of experience we have a few suppliers that we believe stand out from the rest in terms of service, quality and choice, and it is those suppliers that we choose to use. One such company feels the same about us! CLD, one of the leading names in the mesh market, have *officially* named us as one of their Tier 3 Approved Installers.

WE ARE NOW ON FACE BOOK!
